# 3. Charter

## 3.1 Mission Statement

CZ.NIC-CSIRT solve incidents within .CZ domain registry system and incidents in .CZ domain names if they are used in a fashion that endangers the national or international computer security.

## 3.2 Constituency

The constituency is CZ.NIC association and AS25192.

## 3.3 Sponsorship and/or Affiliation

CZ.NIC-CSIRT is part of CZ.NIC z.s.p.o., the .CZ domain name registry

## 3.4 Authority

CZ.NIC-CSIRT is department of CZ.NIC association and operates with authority delegated by association.

As described in 3.1., team is responsible for solving incidents within .cz registry and for preparing expertises in concrete cases of incidents in .CZ domain names. For more information see chapter 4.1.

## 4. Policies

### 4.1 Types of Incidents and Level of Support

CZ.NIC-CSIRT team is responsible for incident handling within AS25192 and incident relating to nameservers for .cz and 0.2.4.e164.arpa.

The CZ.NIC association is entitled to invalidate the delegation of the Domain Name at its own discretion if the same is used in a fashion that endangers the national or international computer security, particularly if through the Domain Name or through the services which are made available by the same a harmful content (especially viruses, malware) is distributed or if the content of a different service is masqueraded (especially phishing), or if the hardware that is made available through the Domain Name becomes a control centre of interlinked hardware network distributing the harmful content (especially botnet).

The CZ.NIC association is entitled to invalidate the delegation of the Domain Name for a period of up to 1 month, even repeatedly; however the association is not obliged to actively seek the Domain Names which would fit the definitions mentioned hereinabove.

Decisions concerning the examination of conditions for invalidation of the delegation and the procedure of invalidation are determined by CZ.NIC-CSIRT.

The procedure taken under this provision cannot be used to enforce the protection of the third parties' property rights against spam distribution if the conditions given in the first sentence of this provision are not fulfilled.

### 4.2 Co-operation, Interaction and Disclosure of Information

CZ.NIC-CSIRT is ready to cooperate with other organizations and teams.

We operate under the restrictions imposed by Czech law. It involves especially Civil code and Data Protection law.

### 4.3 Communication and Authentication

For normal communication not containing sensitive information we use unencrypted e-mail. For secure communication PGP-Encrypted e-mail will be used.

## 5. Services

### 5.1 Incident Response

CZ.NIC-CSIRT will handle the technical and organizational aspects of incidents. In particular, it will provide assistance or advice with respect to the following aspects of incident management:

### 5.1.1. Incident Triage

- Determining whether an incident is authentic
- Assessing and prioritizing the incident

### 5.1.2. Incident Coordination

- Determine the involved organizations
- Contact the involved organizations to investigate the incident and take the appropriate steps
- Facilitate contact to other parties which can help resolve the incident.

### 5.1.3. Incident Resolution

- Removing the vulnerability
- Securing the system from the effects of the incident
- Collecting evidence where criminal prosecution is contemplated

CZ.NIC-CSIRT will also collect statistics about incidents within its constituency.

## 5.2 Proactive Activities

- CZ.NIC-CSIRT gets involved in various projects of the association focusing on end user security and use of information technologies.

## 6. Incident Reporting Forms

There are no local forms available yet. Please use our basic rules for creating incident report:

- A report must contain your contact and organizational information - name and organization name, e-mail, telephone number
- A report must contain IP address and case type
- A report about scanning must contain a cut from a log showing the problem
- A report about spam or virus must contain a copy of the full mailheader from the e-mail which is considered to be a spam or virus
- A report about phishing or pharming must contain URL, and source of the web page if possible

## 7. Disclaimers

While every precaution will be taken in the preparation of information, notifications and alerts, CZ.NIC-CSIRT assumes no responsibility for errors or omissions, or for damages resulting from the use of the information contained within.
